## **V. ANEXO METODOLÓGICO**

### **Guía metodológica**

Las estadísticas incluidas en esta publicación han sido elaboradas siguiendo las recomendaciones establecidas en el documento “Estadísticas de la Deuda Externa – Guía para Compiladores y Usuarios” (la Guía), preparado por ocho organismos internacionales en 2013, el cual sirve de base para la compilación y divulgación de estadísticas de la deuda externa a nivel internacional. Bajo esta Guía, la deuda externa bruta se define como “el monto pendiente de reembolso en un determinado momento de los pasivos corrientes reales y no contingentes asumidos por residentes de una economía frente a no residentes con el compromiso de realizar en el futuro pagos de principal, intereses o ambos”.

### **Consideraciones**

Las estadísticas de deuda externa presentadas en este informe consideran los siguientes aspectos:

1. Los datos de la presente publicación no incluyen estimaciones de la deuda externa privada que no ha sido reportada al BCN (en particular, las relacionadas con créditos comerciales de muy corto plazo de proveedores).
2. Todos los instrumentos de deuda están a valor nominal.
3. En el saldo de la deuda externa bruta se incluyen los intereses devengados, aún no pagaderos (no vencidos).
4. La clasificación de la deuda externa por sector económico se realiza tomando como parámetro, la Clasificación Industrial Internacional Uniforme (CIIU rev.3), de las Naciones Unidas.
5. El saldo de la deuda externa pública incluye las Asignaciones de Derechos Especiales de Giro (DEG) del FMI, a partir del 2005.
6. Los datos de la deuda externa pública no incluyen los depósitos de organismos internacionales en el BCN.
7. Las series de datos son comparables de un período a otro en cuanto a cobertura. Para ello, las estadísticas históricas son actualizadas a medida que más instituciones del sector privado reportan su deuda externa al Banco Central de Nicaragua.
8. La deuda externa privada relacionada en la empresa residente y su casa matriz procede de la información recopilada a través de la Encuesta de Inversión Extranjera.
